APPROVED: SRCS Committee

Date: 08/12/2022

Sydney Radio Control Society Inc

Instructor Policy

- SRCS has a responsibility to provide flying instruction to members who are in the process of learning to fly model aircraft.
- The Instructor Roster, if used, is to ensure that an instructor is available on Saturdays, Sundays and Public Holidays.
- Only MAAA Approved Instructors and those who have done the SRCS Preliminary Course are included on the Instructor Roster. This is to ensure that a consistent approach is maintained towards club instruction.
- In the event of there being a large number of students present on any day, it is hoped that other MAAA Approved Instructors, and those who have done the SRCS Preliminary Course, will assist the duty instructor if requested.
- The duty instructor may request others to help, particularly with pre-flight inspection and engine tuning, provided he considers that they have the required experience.
- If the duty instructor is not present then it is hoped that other members present will fill in, by assisting any members who are expecting to receive instruction.
- If MAAA Approved Instructors, and those who have done the SRCS Preliminary Course, are present then they should be the preferred stand in.
- It is not desirable that, in the event of none of the above being present, that any members who are expecting to receive instruction leave without flying. Under these circumstances, provided that they are prepared to help, experienced members of the club, whose flying is to gold wings standard, may provide instruction on behalf of the club.
